

AIR DISTRIBUTION PRODUCTS

**Sriviven**
AIRTECH

Introduction

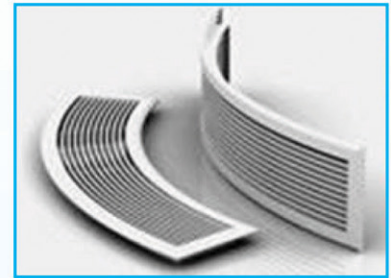

Sriven Airtech has been established in 2004 in Hyderabad.

It offers comprehensive range of Air Distribution Products including Diffusers (Jointless), Grills, Dampers, Louvers, Hepa Terminal Modules, Volume Control Dampers, Non Vision Door Grills, Perforated Grills and Host of New Products under development having state of an art manufacturing facilities with well experienced engineers and in house powder coating facility with capacity of 5000 sqft. can be powder coated per day. It helps to delivery of products with minimum committed time with required quality.

The products are designed to meet optimum quality, comfort and performance demanded by consulting engineers with aesthetic look.

Circular Grill

Curved Grill

Continuous Grill

Floor Grill

Slot Diffuser

Product Range

GRILLS

Designed for both supply and return air purposes. Curved grills available for interior designers.

MOC : Extruded Aluminium available in 0 / 15 / 30 / 45 deflection.

FINISH : Epoxy Polyester Powder Coated / Anodised.

FLOOR GRILLS

Designed for heavy load application on floor for return air supply.

MOC : Frame Heavy Gauge GI Grill extruded aluminium.

FINISH : Epoxy Polyester Powder Coated.

SLOT DIFFUSER

Designed for installation in the ceiling, side wall and are recommended for supplying heated, ventilated or cooled air and for return and exhausting room air. Air Pattern direction changed through 180° are erected by the integral controller, permitting pattern adjustment to meet changing requirements.

MOC : Extruded Aluminium.

FINISH : Epoxy Polyester Powder Coated.

Available in 2 slots, 3 slots, 4 slots upto 8 slots with hit and miss damper.

SINGLE DEFLECTION GRILLS

Designed for adjust the airflow manually for comfort. It can be adjusted for two directions only.

MOC : Extruded Aluminium .

FINISH : Epoxy Powder Coated.

Single Diflection Grill

SINGLE AND DOUBLE DEFLECTION GRILLS

Designed for adjust the airflow manually for comfort. It can be adjusted for all the four directions.

MOC : Extruded Aluminium .

FINISH : Epoxy Powder Coated.

Double Diflection Grill

DIFFUSER

Designed for to diffuse the material all the 4 way

MOC : Aluminium Single Piece.

FINISH : Epoxy Polyester Powder Coated.

Available in standard, Circular Type, Anti Smudged Type, Tegular Type (Grid Type) Diffusers.

Standard Diffuser (Removable Type)

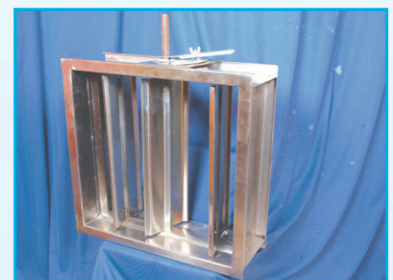

VOLUME CONTROL DAMPERS

Designed for to control the Airflow to all branches.

MOC : GI construction with bushings.

Aluminium Extruded Aerofoil Damper Blade Design Lowe Leak Damper.

FINISH : Epoxy Polyester Powder Coated / Anodised for Aluminium.

S.S-304 Volume Control Damper

GI Volume Control Damper

Aluminium Volume Control Damper (Aerofil)

Circular Damper

BUTTERFLY DAMPERS

Specially Designed for use in Circular Ducts.

MOC : GI construction with bushings.

TYPE : Single Flap

Butterfly/Circular Damper

COLLAR DAMPER

Designed for to Adjust for Required Air Flow.

MOC : Extruded Aluminium / GI

FINISH : Powder Coated.

Collar Damper

FIRE DAMPER

Designed for to Restrict the Fire.

MOC : G.I

TYPE : Fusible Link Operated / Solenoid Operated

Fire Damper

DISC VALVE

These Valves can be used for Ventilation as well as Supply Appon

MOC : G.I / Aluminium

FINISH : Powder Coated.

Disc Valve

WEATHER LOUVERS

Designed for the Minimize Water Ingress, these Louvers used at Exterior Purpose.

MOC : G.I / Extruded Aluminium

FINISH : Powder Coated.

Weather Louver

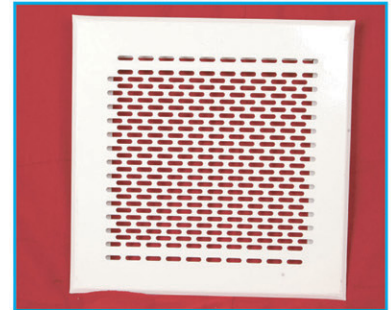

PERFORATED GRILL

These Grills are used in clean room applications as a return air grill with filter

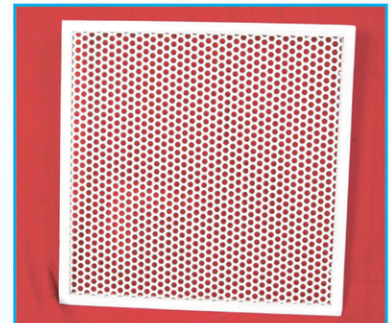

MOC : GI / Aluminium / S.S.

TYPE : Round / Capsule.

FINISH : Epoxy Powder Coated for GI and Aluminium.

Perforated Grill (Capsule Type)

Perforated Grill (Round Type)

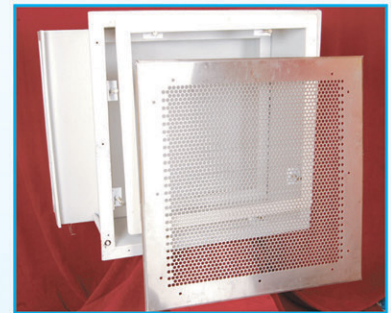

HEPA FILTER TERMINAL BOX

These are extensively used in clean rooms for the purpose of to install the Hepa Filter to clean the air upto 0.3 microns.

MOC : GI / SS 304

TYPE : Flange Type / Box Type Filters

FINISH : Powder Coated.

Hepa Filter (Box Type)

Hepa Filter (Flange Type)

RAISER DAMPER

These are dampers are used in panels (in built)

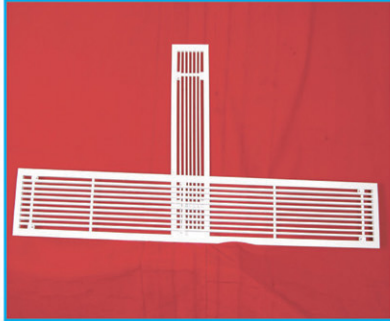

MOC : GI / SS 304

TYPE : Knob / Gear Operated

FINISH : Powder Coated.

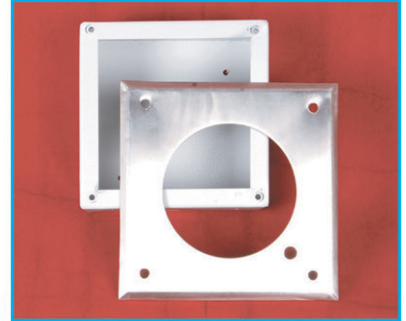

Raiser Damper

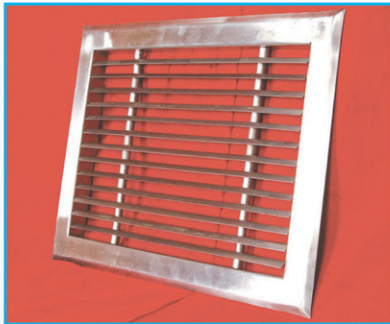

Linear Bar Grill

Canvas Connection

Gauge Box

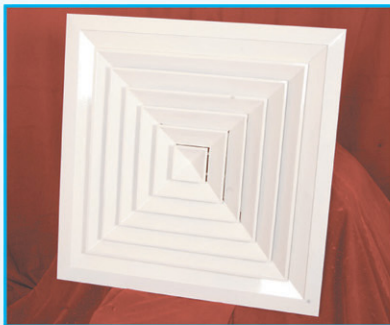

S.S-304 Linear Grill

Removable Grill

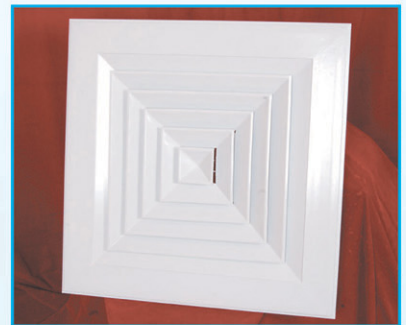

Circular Diffuser

Standard Diffuser

Anti Smudge Type Diffuser

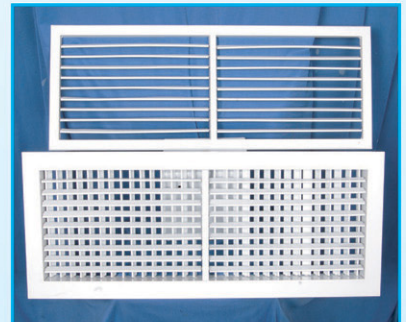

Tegular Type Diffuser

Circular Grill

Non Vision Door Grill

Single & Double Deflection

Selected List of Projects

Hotels

1. The Park, Somajiguda, Hyderabad.
